Class:

Warm-up Activity: Look outside! (Rozgrzewka)

Look outside the window right now. What is the weather like today? Write one simple sentence in English. (Spójrz przez okno. Jaka jest dzisiaj pogoda? Napisz jedno proste zdanie po angielsku. E.g., It is sunny and warm today.)

My sentence: Today, the weather is

.....

Part 1: Quick Reading (Krótka czytanka)

English: Weather is what happens outside right now (short time). Climate is the usual weather over a long time (many years). Earth has different climate zones: **tropical** (hot and rainy), **arid** (hot and dry), **temperate** (four seasons, moderate), and **polar** (very cold, ice and snow).

Polski: Pogoda to stan atmosfery w danym momencie. Klimat to typowe zjawiska pogodowe utrzymujące się przez długi czas. Na Ziemi wyróżniamy strefy: **tropikalną** (gorąca i deszczowa), **suchą** (pustynna), **umiarkowaną** (cztery pory roku) oraz **polarną** (mroźna, lód i śnieg).

Did you know? / Czy wiesz, że?

Egypt has a very hot and dry (arid) climate, but Canada has extremely cold winters and warm summers. Poland is in the temperate zone, which means we experience 4 beautiful seasons!

Part 2: Bilingual Glossary (Słowniczek dwujęzyczny)

Study these 10 important words from the climate lesson. They will help you solve the tasks!

English Term	Polish Equivalent	Context & Meaning / Znaczenie w zdaniu
climate	klimat	The usual weather in a place over a long time (e.g. temperate climate). / Typowa pogoda na danym obszarze przez długi czas.
weather	pogoda	What happens outside on a short time scale (e.g. it is sunny today). / Stan atmosfery w danym momencie.
climate zones	strefy klimatyczne	Different areas on Earth grouped by temperature and rain. / Obszary Ziemi o podobnym klimacie.
temperate	umiarkowany	Moderate temperatures, with four seasons (e.g. most of Europe). / Umiarkowane temperatury, cztery pory roku.
arid / desert	suchy / pustynny	Very dry and hot climate, with almost no rain (e.g. Sahara). / Klimat bardzo suchy i gorący z minimalnymi opadami.
polar	polarny	Extremely cold, with ice and snow most of the year. / Bardzo zimny klimat okołobiegunowy, wieczny śnieg.
rainfall	opady deszczu	Water falling from the clouds (very heavy in tropical zones). / Deszcz docierający do powierzchni Ziemi.
climate change	zmiana klimatu	Global warming caused by human activities like burning fuels. / Zmiany klimatu wywołane m.in. spalaniem paliw.
drought	susza	A long period of time with extremely little or no rainfall. / Długi okres bez opadów deszczu powodujący wysychanie ziemi.
environmental protection	ochrona środowiska	Actions we take to save our planet, such as recycling. / Działania mające na celu ochronę Ziemi przed zniszczeniem.

Part 3: Exercises & Tasks (Zadania praktyczne)
